

What is this?

Course materials for the Architecture Reconstruction sessions from the Software Architecture course at the IT University in Copenhagen.

Development Notes

Automatic generation of .pdf from .md for every chapter

To enable the automatic generation of the pdf from .md for the lecture notes make sure to

1. Install **pandoc** on the machine you're working on
2. Run the following in the root

```
git config --local core.hooksPath ./git-hooks/
```

Command adapted from a SO answer.
