

## What is this?

Course materials for the Architecture Reconstruction sessions from the Software Architecture course at the IT University in Copenhagen.

## Development

### Automatic generation of .pdf from .md for every chapter

To enable the automatic generation of the pdf from .md for the lecture notes make sure to

1. Install **pandoc** on the machine you're working on
2. Run the following in the root

```
git config --local core.hooksPath ./git-hooks/
```
